Product datasheet for CF813846

BCMA (TNFRSF17) Mouse Monoclonal Antibody [Clone ID: OTI11B1]

Product data:

Product Type:	Primary Antibodies
Clone Name:	OTI11B1
Applications:	FC
Recommended Dilution:	FC 1:100
Reactivity:	Human
Host:	Mouse
lsotype:	lgG1
Clonality:	Monoclonal
Immunogen:	Recombinant full length protein of human TNFRSF17/BCMA (NP_001183) produced in HEK293 cell.
Formulation:	Lyophilized powder (original buffer 1X PBS, pH 7.3, 8% trehalose)
Reconstitution Method:	For reconstitution, we recommend adding 100uL distilled water to a final antibody concentration of about 1 mg/mL. To use this carrier-free antibody for conjugation experiment, we strongly recommend performing another round of desalting process. (OriGene recommends Zeba Spin Desalting Columns, 7KMWCO from Thermo Scientific)
Purification:	Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography (protein A/G)
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Predicted Protein Size:	20.1 kDa
Gene Name:	TNF receptor superfamily member 17
Database Link:	<u>NP_001183</u> <u>Entrez Gene 608 Human</u> <u>Q02223</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

CRIGENE BCMA (TNFRSF17) Mouse Monoclonal Antibody [Clone ID: OTI11B1] – CF813846

Background:	The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor is preferentially expressed in mature B lymphocytes, and may be important for B cell development and autoimmune response. This receptor has been shown to specifically bind to the tumor necrosis factor (ligand) superfamily, member 13b (TNFSF13B/TALL-1/BAFF), and to lead to NF-kappaB and MAPK8/JNK activation. This receptor also binds to various TRAF family members, and thus may transduce signals for cell survival and proliferation. [provided by RefSeq, Jul 2008]
Synonyms:	BCM; BCMA; CD269; TNFRSF13A
Protein Families:	Druggable Genome, Transmembrane

Protein Pathways: Cytokine-cytokine receptor interaction

Product images:

Flow cytometric analysis of living 293T cells cotransfected with pCMV6-ENTRY BCMA (Cat# [RC208851]) and pCMV6-ENTRY APRIL (Cat# [RC221008]) cDNAs (Red) or transfected with empty vector (Cat# [PS100001], Blue) using anti-BCMA antibody (Cat# [TA813846]) compared to a nonspecific negative control antibody (Green). (1:100)

Flow cytometric analysis of living RPMI-8226 cells, using anti-BCMA antibody (Cat# [TA813846], Red), compared to an isotype control (green), and a PBS control (blue). (1:100)
