

# Product datasheet for CR560315

### **Tissue Total RNA, Myometrium**

#### **Product data:**

| Product Type:                                      | Total RNA                             |
|----------------------------------------------------|---------------------------------------|
| Disease State:                                     | Cancer                                |
| Diagnosis Category:                                | Sarcoma                               |
| Tissue:                                            | Smooth muscle                         |
| Frozen Sample ID:                                  | FR00035C63                            |
| Case ID:                                           | CI0000016444                          |
| Prep:                                              | 1                                     |
| Vial ID:                                           | RN00003C7E                            |
| Tissue of Origin:                                  | Myometrium                            |
| Site of Finding:                                   | Ovary: right                          |
| Appearance:                                        | Tumor                                 |
| Sample Diagnosis (from<br>Pathology Verification): | Leiomyosarcoma, metastatic            |
| Normal:                                            | 0%                                    |
| Lesional:                                          | 0%                                    |
| Tumor:                                             | 85%                                   |
| Tumor Hypo/Acellular<br>Stroma:                    | 5%                                    |
| Tumor Hypercellular<br>Stroma:                     | 10%                                   |
| Necrosis:                                          | 0%                                    |
| Pathology Verification<br>notes from H&E review:   | Tumor Stroma (Hypo/Acellular): Myxoid |
| Bioanalyzer Ratio<br>(28S/18S):                    | 1.4                                   |

| 🖢 OR ̈̈́GENE Tissue Total RNA, Myometrium – CR560315    |                                                                                                                  |
|---------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| CASE Diagnosis (from<br>medical center path<br>report): | Leiomyosarcoma, metastatic                                                                                       |
| Age:                                                    | 67                                                                                                               |
| Gender:                                                 | Female                                                                                                           |
| Race:                                                   | White or Caucasian                                                                                               |
| Tumor Grade:                                            | Not Reported                                                                                                     |
| Minimum Stage<br>Grouping:                              | IIIA                                                                                                             |
| T (Extent of Primary<br>Tumor):                         | ТЗа                                                                                                              |
| N (Lymph node<br>metastasis):                           | NX                                                                                                               |
| M (Distant metastasis):                                 | MX                                                                                                               |
| Storage:                                                | Store tissue total RNA at -80°C.                                                                                 |
| Stability:                                              | These products are stable for one year from date of shipping when stored at -80°C without repeated freeze/thaws. |
