

# Product datasheet for CS528412

### Frozen Tissue Sections, Kidney

#### **Product data:**

| Product Type:   | Frozen Sections                        |
|---|--|
| Disease State:  | Other Disease                          |
| Diagnosis Category:                                     | Benign Tumors                          |
| Tissue:   | Kidney                                 |
| Frozen Sample ID:                                       | FR0002C57A                             |
| Case ID:  | CI0000010656                           |
| Tissue of Origin:                                       | Kidney                                 |
| Site of Finding:  | Kidney                                 |
| Appearance:   | т                                      |
| Sample Diagnosis (from<br>Pathology Verification):      | Oncocytoma                             |
| Normal:   | 0%                                     |
| Lesional:   | 0%                                     |
| Tumor:  | 95%                                    |
| Tumor Hypo/Acellular<br>Stroma:                         | 0%                                     |
| Tumor Hypercellular<br>Stroma:                          | 5%                                     |
| Necrosis:   | 0%                                     |
| CASE Diagnosis (from<br>medical center path<br>report): | Oncocytoma                             |
| Age:  | 57                                     |
| Gender:   | Female                                 |
| Race:   | White or Caucasian                     |
| Storage:  | Store frozen tissue sections at -80°C. |
