| Product Type:   | Frozen Sections                         |
|---|---|
| Disease State:  | Cancer                                  |
| Diagnosis Category:                                     | Sarcoma                                 |
| Tissue:   | Neural tissue                           |
| Frozen Sample ID:                                       | FR00024DFD                              |
| Case ID:  | CU000006487                             |
| Tissue of Origin:                                       | Neural tissue                           |
| Site of Finding:  | Foot                                    |
| Appearance:   | Tumor                                   |
| Sample Diagnosis (from<br>Pathology Verification):      | Malignant peripheral nerve sheath tumor |
| Normal:   | 0%                                      |
| Lesional:   | 0%                                      |
| Tumor:  | 90%                                     |
| Tumor Hypo/Acellular<br>Stroma:                         | 0%                                      |
| Tumor Hypercellular<br>Stroma:                          | 5%                                      |
| Necrosis:   | 5%                                      |
| CASE Diagnosis (from<br>medical center path<br>report): | Malignant peripheral nerve sheath tumor |
| Age:  | 57                                      |
| Gender:   | Female                                  |
| Tumor Grade:  | AJCC G3: Poorly differentiated          |
| Minimum Stage<br>Grouping:                              | II                                      |
