| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                               |
| Description:  | RAP2A CRISPRa kit - CRISPR gene activation of human RAP2A, member of RAS oncogene family                                                                                                                                                                                                                   |
| Symbol:       | RAP2A                                                                                                                                                                                                                                                                                                      |
| Components:   | GA104021G1, RAP2A gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA104021G2, RAP2A gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA104021G3, RAP2A gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u>P10114</u>                                                                                                                                                                                                                                                                                              |
| Synonyms:     | K-REV; KREV; RAP2; RbBP-30                                                                                                                                                                                                                                                                                 |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                    |
