| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                               |
| Description:  | RRAGB CRISPRa kit - CRISPR gene activation of human Ras related GTP binding B                                                                                                                                                                                                                              |
| Symbol:       | RRAGB                                                                                                                                                                                                                                                                                                      |
| Components:   | GA107037G1, RRAGB gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA107037G2, RRAGB gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA107037G3, RRAGB gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q5VZM2</a></u>                                                                                                                                                                                                                                                                              |
| Synonyms:     | bA465E19.1; RAGB                                                                                                                                                                                                                                                                                           |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                    |
