| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                               |
| Description:  | VPS39 CRISPRa kit - CRISPR gene activation of human VPS39 subunit of HOPS complex                                                                                                                                                                                                                          |
| Symbol:       | VPS39                                                                                                                                                                                                                                                                                                      |
| Components:   | GA108232G1, VPS39 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA108232G2, VPS39 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA108232G3, VPS39 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <a href="#">Q96JC1</a>                                                                                                                                                                                                                                                                                     |
| Synonyms:     | hVam6p; TLP; VAM6                                                                                                                                                                                                                                                                                          |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                    |
