| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                            |
| Description:  | SHQ1 CRISPRa kit - CRISPR gene activation of human SHQ1, H/ACA ribonucleoprotein assembly factor                                                                                                                                                                                                        |
| Symbol:       | SHQ1                                                                                                                                                                                                                                                                                                    |
| Components:   | GA110566G1, SHQ1 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA110566G2, SHQ1 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA110566G3, SHQ1 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q6PI26</a></u>                                                                                                                                                                                                                                                                           |
| Synonyms:     | GRIM-1; Shq1p                                                                                                                                                                                                                                                                                           |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                 |
