| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                               |
| Description:  | TRIM36 CRISPRa kit - CRISPR gene activation of human tripartite motif containing 36                                                                                                                                                                                                                        |
| Symbol:       | TRIM36                                                                                                                                                                                                                                                                                                     |
| Components:   | GA110774G1, RNF98 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA110774G2, RNF98 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA110774G3, RNF98 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <a href="#">Q9NQ86</a>                                                                                                                                                                                                                                                                                     |
| Synonyms:     | HAPRIN; RBCC728; RNF98                                                                                                                                                                                                                                                                                     |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                    |
