| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                                  |
| Description:  | PARP11 CRISPRa kit - CRISPR gene activation of human poly(ADP-ribose) polymerase family member 11                                                                                                                                                                                                             |
| Symbol:       | PARP11                                                                                                                                                                                                                                                                                                        |
| Components:   | GA111368G1, PARP11 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA111368G2, PARP11 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA111368G3, PARP11 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <a href="#">Q9NR21</a>                                                                                                                                                                                                                                                                                        |
| Synonyms:     | ARTD11; C12orf6; MIB006                                                                                                                                                                                                                                                                                       |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                       |
