| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                                  |
| Description:  | SFMBT2 CRISPRa kit - CRISPR gene activation of human Scm like with four mbt domains 2                                                                                                                                                                                                                         |
| Symbol:       | SFMBT2                                                                                                                                                                                                                                                                                                        |
| Components:   | GA111706G1, SFMBT2 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA111706G2, SFMBT2 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA111706G3, SFMBT2 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q5VUG0</a></u>                                                                                                                                                                                                                                                                                 |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                       |
