

## Product datasheet for **GA111784**

### Human Prol1 (OPRPN) activation kit by CRISPRa

#### Product data:

|               |                                                                             |
|---------------|-----------------------------------------------------------------------------|
| Product Type: | CRISPRa Kits                                                                |
| Description:  | OPRPN CRISPRa kit - CRISPR gene activation of human opiorphin prepropeptide |
| Symbol:       | OPRPN                                                                       |
| UniProt ID:   | <u>Q99935</u>                                                               |
| Synonyms:     | BPLP; opiorphin; PRL1; PROL1                                                |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)     |
