| <b>Product Type:</b> | CRISPRa Kits                                                                                                                                                                                                                                                                                                     |
| <b>Description:</b>  | ATL2 CRISPRa kit – CRISPR gene activation of human atlastin GTPase 2                                                                                                                                                                                                                                             |
| <b>Symbol:</b>       | ATL2                                                                                                                                                                                                                                                                                                             |
| <b>Components:</b>   | GA112023G1, ARL6IP2 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA112023G2, ARL6IP2 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA112023G3, ARL6IP2 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| <b>UniProt ID:</b>   | <u><a href="#">Q8NHH9</a></u>                                                                                                                                                                                                                                                                                    |
| <b>Synonyms:</b>     | ARL3IP2; ARL6IP2; atlastin2                                                                                                                                                                                                                                                                                      |
| <b>Format:</b>       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                          |
