| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                            |
| Description:  | C17orf53 CRISPRa kit - CRISPR gene activation of human chromosome 17 open reading frame 53                                                                                                                                                                                                              |
| Symbol:       | HROB                                                                                                                                                                                                                                                                                                    |
| Components:   | GA112296G1, HROB gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA112296G2, HROB gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA112296G3, HROB gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <a href="#">Q8N3J3</a>                                                                                                                                                                                                                                                                                  |
| Synonyms:     | FLJ11594; MGC3130                                                                                                                                                                                                                                                                                       |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                 |
