| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                            |
| Description:  | ZBBX CRISPRa kit - CRISPR gene activation of human zinc finger B-box domain containing                                                                                                                                                                                                                  |
| Symbol:       | ZBBX                                                                                                                                                                                                                                                                                                    |
| Components:   | GA112592G1, ZBBX gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA112592G2, ZBBX gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA112592G3, ZBBX gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u>A8MT70</u>                                                                                                                                                                                                                                                                                           |
| Synonyms:     | FLJ23049                                                                                                                                                                                                                                                                                                |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                 |
