| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                                  |
| Description:  | PCNX2 CRISPRa kit - CRISPR gene activation of human pecanex 2                                                                                                                                                                                                                                                 |
| Symbol:       | PCNX2                                                                                                                                                                                                                                                                                                         |
| Components:   | GA112780G1, PCNXL2 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA112780G2, PCNXL2 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA112780G3, PCNXL2 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <a href="#">A6NKB5</a>                                                                                                                                                                                                                                                                                        |
| Synonyms:     | PCNXL2                                                                                                                                                                                                                                                                                                        |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                       |
