| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                               |
| Description:  | MED10 CRISPRa kit - CRISPR gene activation of human mediator complex subunit 10                                                                                                                                                                                                                            |
| Symbol:       | MED10                                                                                                                                                                                                                                                                                                      |
| Components:   | GA113445G1, MED10 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA113445G2, MED10 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA113445G3, MED10 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u>Q9BTT4</u>                                                                                                                                                                                                                                                                                              |
| Synonyms:     | L6; NUT2; TRG20                                                                                                                                                                                                                                                                                            |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                    |
