| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                                           |
| Description:  | MRGPRD CRISPRa kit - CRISPR gene activation of human MAS related GPR family member D                                                                                                                                                                                                                                   |
| Symbol:       | MRGPRD                                                                                                                                                                                                                                                                                                                 |
| Components:   | GA114601G1, GPCR TGR7 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA114601G2, GPCR TGR7 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA114601G3, GPCR TGR7 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q8TDS7</a></u>                                                                                                                                                                                                                                                                                          |
| Synonyms:     | MRGD; TGR7                                                                                                                                                                                                                                                                                                             |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                                |
