| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                            |
| Description:  | RFFL CRISPRa kit - CRISPR gene activation of human ring finger and FYVE like domain containing E3 ubiquitin protein ligase                                                                                                                                                                              |
| Symbol:       | RFFL                                                                                                                                                                                                                                                                                                    |
| Components:   | GA114651G1, RFFL gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA114651G2, RFFL gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA114651G3, RFFL gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q8WZ73</a></u>                                                                                                                                                                                                                                                                           |
| Synonyms:     | CARP-2; CARP2; FRING; RIFIFYLIN; RNF34L; RNF189                                                                                                                                                                                                                                                         |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                 |
