| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                                  |
| Description:  | NUDT14 CRISPRa kit - CRISPR gene activation of human nudix hydrolase 14                                                                                                                                                                                                                                       |
| Symbol:       | NUDT14                                                                                                                                                                                                                                                                                                        |
| Components:   | GA116853G1, NUDT14 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA116853G2, NUDT14 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA116853G3, NUDT14 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">O95848</a></u>                                                                                                                                                                                                                                                                                 |
| Synonyms:     | UGPP; UGPPase                                                                                                                                                                                                                                                                                                 |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                       |
