| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                                     |
| Description:  | C7orf61 CRISPRa kit - CRISPR gene activation of human chromosome 7 open reading frame 61                                                                                                                                                                                                                         |
| Symbol:       | C7orf61                                                                                                                                                                                                                                                                                                          |
| Components:   | GA118363G1, C7orf61 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA118363G2, C7orf61 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA118363G3, C7orf61 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q8IZ16</a></u>                                                                                                                                                                                                                                                                                    |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                          |
