| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                                  |
| Description:  | HAPLN4 CRISPRa kit - CRISPR gene activation of human hyaluronan and proteoglycan link protein 4                                                                                                                                                                                                               |
| Symbol:       | HAPLN4                                                                                                                                                                                                                                                                                                        |
| Components:   | GA118382G1, HAPLN4 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA118382G2, HAPLN4 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA118382G3, HAPLN4 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q86UW8</a></u>                                                                                                                                                                                                                                                                                 |
| Synonyms:     | BRAL2                                                                                                                                                                                                                                                                                                         |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                       |
