| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                               |
| Description:  | NBPF6 CRISPRa kit - CRISPR gene activation of human NBPF member 6                                                                                                                                                                                                                                          |
| Symbol:       | NBPF6                                                                                                                                                                                                                                                                                                      |
| Components:   | GA118826G1, NBPF6 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA118826G2, NBPF6 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA118826G3, NBPF6 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q5VWK0</a></u>                                                                                                                                                                                                                                                                              |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                    |
