| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                               |
| Description:  | PRR32 CRISPRa kit - CRISPR gene activation of human proline rich 32                                                                                                                                                                                                                                        |
| Symbol:       | PRR32                                                                                                                                                                                                                                                                                                      |
| Components:   | GA119124G1, PRR32 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA119124G2, PRR32 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA119124G3, PRR32 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u>B1ATL7</u>                                                                                                                                                                                                                                                                                              |
| Synonyms:     | CXorf64                                                                                                                                                                                                                                                                                                    |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                    |
