| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                            |
| Description:  | Rgl1 CRISPRa kit - CRISPR gene activation of mouse ral guanine nucleotide dissociation stimulator,-like 1                                                                                                                                                                                               |
| Symbol:       | Rgl1                                                                                                                                                                                                                                                                                                    |
| Components:   | GA203631G1, Rgl1 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA203631G2, Rgl1 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA203631G3, Rgl1 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q60695</a></u>                                                                                                                                                                                                                                                                           |
| Synonyms:     | mKIAA0959; Rgl                                                                                                                                                                                                                                                                                          |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                 |
