| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                            |
| Description:  | Rnu6 CRISPRa kit - CRISPR gene activation of mouse U6 small nuclear RNA                                                                                                                                                                                                                                 |
| Symbol:       | Rnu6                                                                                                                                                                                                                                                                                                    |
| Components:   | GA203663G1, Rnu6 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA203663G2, Rnu6 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA203663G3, Rnu6 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                 |
