| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                            |
| Description:  | Uncx CRISPRa kit - CRISPR gene activation of mouse UNC homeobox                                                                                                                                                                                                                                         |
| Symbol:       | Uncx                                                                                                                                                                                                                                                                                                    |
| Components:   | GA204546G1, Uncx gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA204546G2, Uncx gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA204546G3, Uncx gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">O08934</a></u>                                                                                                                                                                                                                                                                           |
| Synonyms:     | Chx4; Uncx4.1                                                                                                                                                                                                                                                                                           |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                 |
