| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                            |
| Description:  | Gps2 CRISPRa kit - CRISPR gene activation of mouse G protein pathway suppressor 2                                                                                                                                                                                                                       |
| Symbol:       | Gps2                                                                                                                                                                                                                                                                                                    |
| Components:   | GA205902G1, Gps2 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA205902G2, Gps2 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA205902G3, Gps2 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q921N8</a></u>                                                                                                                                                                                                                                                                           |
| Synonyms:     | AI505953                                                                                                                                                                                                                                                                                                |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                 |
