| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                               |
| Description:  | Armt1 CRISPRa kit - CRISPR gene activation of mouse acidic residue methyltransferase 1                                                                                                                                                                                                                     |
| Symbol:       | Armt1                                                                                                                                                                                                                                                                                                      |
| Components:   | GA209491G1, Armt1 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA209491G2, Armt1 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA209491G3, Armt1 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <a href="#">A6H630</a>                                                                                                                                                                                                                                                                                     |
| Synonyms:     | 1700052N19Rik; AW320013; AW536799                                                                                                                                                                                                                                                                          |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                    |
