| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                            |
| Description:  | Ipo4 CRISPRa kit - CRISPR gene activation of mouse importin 4                                                                                                                                                                                                                                           |
| Symbol:       | Ipo4                                                                                                                                                                                                                                                                                                    |
| Components:   | GA210335G1, Ipo4 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA210335G2, Ipo4 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA210335G3, Ipo4 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q8VI75</a></u>                                                                                                                                                                                                                                                                           |
| Synonyms:     | 8430408O15Rik; AA409693; Imp4a; RanBP4                                                                                                                                                                                                                                                                  |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                 |
