

## Product datasheet for **GA212468**

### Mouse *Slc19a2* activation kit by CRISPRa

#### Product data:

|               |                                                                                                                 |
|---------------|-----------------------------------------------------------------------------------------------------------------|
| Product Type: | CRISPRa Kits                                                                                                    |
| Description:  | Slc19a2 CRISPRa kit - CRISPR gene activation of mouse solute carrier family 19 (thiamine transporter), member 2 |
| Symbol:       | Slc19a2                                                                                                         |
| UniProt ID:   | <a href="#">Q9EQN9</a>                                                                                          |
| Synonyms:     | AV276020; AW322295; DDA1; THTR1; TRMA                                                                           |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                         |
