| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                               |
| Description:  | Mrtfb CRISPRa kit - CRISPR gene activation of mouse myocardin related transcription factor B                                                                                                                                                                                                               |
| Symbol:       | Mrtfb                                                                                                                                                                                                                                                                                                      |
| Components:   | GA214873G1, Mrtfb gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA214873G2, Mrtfb gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA214873G3, Mrtfb gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <a href="#">P59759</a>                                                                                                                                                                                                                                                                                     |
| Synonyms:     | ENSMUSG00000075401; Gt4-1; mKIAA1243; MRTF-B; Mrtfb                                                                                                                                                                                                                                                        |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                    |
