| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                                     |
| Description:  | Olfr310 CRISPRa kit - CRISPR gene activation of mouse olfactory receptor 310                                                                                                                                                                                                                                     |
| Symbol:       | Olfr310                                                                                                                                                                                                                                                                                                          |
| Components:   | GA215456G1, Olfr310 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA215456G2, Olfr310 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA215456G3, Olfr310 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| Synonyms:     | MOR227-6P                                                                                                                                                                                                                                                                                                        |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                          |
