| Description:  | Olfr53 CRISPRa kit - CRISPR gene activation of mouse olfactory receptor 53                                                                                                                                                                                                                                    |
| Symbol:       | Olfr53                                                                                                                                                                                                                                                                                                        |
| Components:   | GA215796G1, Olfr53 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA215796G2, Olfr53 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA215796G3, Olfr53 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| Synonyms:     | IE12; MOR253-5                                                                                                                                                                                                                                                                                                |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                       |
