| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                                  |
| Description:  | Glt1d1 CRISPRa kit - CRISPR gene activation of mouse glycosyltransferase 1 domain containing 1                                                                                                                                                                                                                |
| Symbol:       | Glt1d1                                                                                                                                                                                                                                                                                                        |
| Components:   | GA216359G1, Glt1d1 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA216359G2, Glt1d1 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA216359G3, Glt1d1 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u>A4FUP9</u>                                                                                                                                                                                                                                                                                                 |
| Synonyms:     | 5730455A04Rik                                                                                                                                                                                                                                                                                                 |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                       |
