| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                                     |
| Description:  | Ccdc158 CRISPRa kit - CRISPR gene activation of mouse coiled-coil domain containing 158                                                                                                                                                                                                                          |
| Symbol:       | Ccdc158                                                                                                                                                                                                                                                                                                          |
| Components:   | GA216546G1, Ccdc158 gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA216546G2, Ccdc158 gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA216546G3, Ccdc158 gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q8CDI6</a></u>                                                                                                                                                                                                                                                                                    |
| Synonyms:     | 4932413O14Rik                                                                                                                                                                                                                                                                                                    |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                          |
