

## Product datasheet for **GA216741**

### Mouse Accs activation kit by CRISPRa

#### Product data:

|               |                                                                                                                |
|---------------|----------------------------------------------------------------------------------------------------------------|
| Product Type: | CRISPRa Kits                                                                                                   |
| Description:  | Accs CRISPRa kit - CRISPR gene activation of mouse 1-aminocyclopropane-1-carboxylate synthase (non-functional) |
| Symbol:       | Accs                                                                                                           |
| UniProt ID:   | <u><a href="#">A2AIG8</a></u>                                                                                  |
| Synonyms:     | 2610203E10Rik; Phacs                                                                                           |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                        |
