| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                               |
| Description:  | Accsl CRISPRa kit - CRISPR gene activation of mouse 1-aminocyclopropane-1-carboxylate synthase (non-functional)-like                                                                                                                                                                                       |
| Symbol:       | Accsl                                                                                                                                                                                                                                                                                                      |
| Components:   | GA217119G1, Accsl gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA217119G2, Accsl gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA217119G3, Accsl gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q3UX83</a></u>                                                                                                                                                                                                                                                                              |
| Synonyms:     | Gm1967                                                                                                                                                                                                                                                                                                     |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                    |
