| Product Type: | CRISPRa Kits                                                                                                                                                                                                                                                                                            |
| Description:  | Prcd CRISPRa kit - CRISPR gene activation of mouse photoreceptor disc component                                                                                                                                                                                                                         |
| Symbol:       | Prcd                                                                                                                                                                                                                                                                                                    |
| Components:   | GA218761G1, Prcd gRNA vector 1 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA218761G2, Prcd gRNA vector 2 in pCas-Guide-GFP-CRISPRa (GE100074)<br>GA218761G3, Prcd gRNA vector 3 in pCas-Guide-GFP-CRISPRa (GE100074)<br>1 CRISPRa-Enhancer vector, SKU GE100056<br>1 CRISPRa scramble vector, SKU GE100077 |
| UniProt ID:   | <u><a href="#">Q00LT2</a></u>                                                                                                                                                                                                                                                                           |
| Synonyms:     | Gm11744; OTTMUSG00000003947                                                                                                                                                                                                                                                                             |
| Format:       | 3 gRNAs (5ug each), 1 scramble ctrl (10ug) and 1 enhancer vector (10ug)                                                                                                                                                                                                                                 |
