

Product datasheet for **GE100037**

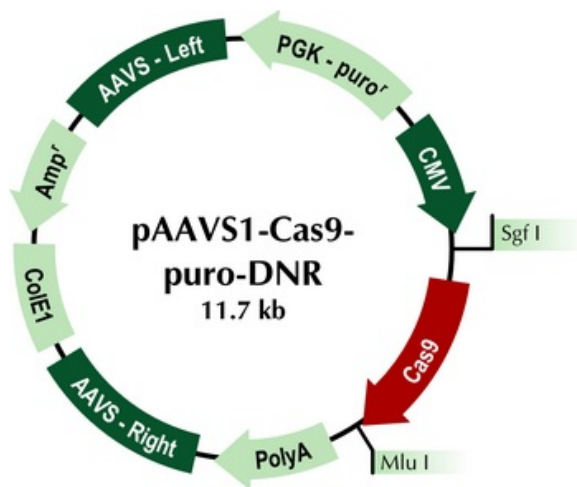

pAAVS1-Cas9-Puro-DNR

Product data:

- Product Type:** CRISPR Vectors
- Function:** Cas9 only vectors
- Features:** Cas9 in AAVS1-Puro donor vector
- CMV-Cas9 and PGK-Puro in AAVS1 donor vector.
 - Contains AAVS1 left and right homologous sequences (550 bp each side)
 - CMV-Cas9 and PGK-Puro cassette can be integrated into human AAVS1 site when cotransfected with pCas-Guide-AAVS1
 - When transfected into cells alone, can be used as regular Cas9 mammalian expression vector
