

Product datasheet for **GE100142**

Sequencing Primer, tGFP_R

Product data:

Product Type:	DNA Sequencing Primers
Description:	Reverse primer to sequence targets cloned in expression vectors.
Reverse Sequence:	CTGCTCGGGGTGCCCTCTCC
Components:	1 vial of lyophilized sequencing primer (1 nmol, sufficient for 100 sequencing reactions)
Quality Control:	The primer has been tested to generate satisfactory sequencing data on ABI 3730.
Storage:	Store at -20°C.
Stability:	The lyophilized and suspended primer is stable for one year from date of shipping when stored at -20°C
