

## Product datasheet for **HK300272**

### MIR26A1 Human qPCR Template Standard (MI0000083)

#### Product data:

|                         |                                                                                                                                                                                                       |

| <b>Product Type:</b>    | qPCR Template Standards                                                                                                                                                                               |
| <b>ACCN:</b>            | MIMAT0000082                                                                                                                                                                                          |
| <b>Synonyms:</b>        | hsa-miR-26a; MI0000083; MIMAT0000082; MIR26A1 hsa-mir-26a-1                                                                                                                                           |
| <b>Components:</b>      | 1 vial of lyophilized SybGREEN qPCR miRNA primer mix (1 nmol each primer, sufficient for 200 reactions), 1 vial lyophilized qPCR miRNA template standard: 50 X 10 <sup>7</sup> copies (100 reactions) |
| <b>Quality Control:</b> | Each standard is generated using qSTAR miRNA primer pairs and sequence-verified prior to shipment                                                                                                     |
| <b>Storage:</b>         | The primer mix and template standard are stable for one year from date of shipping. Store at -20°C.                                                                                                   |
