

## Product datasheet for **KN512440**

### **Olfr818 Mouse Gene Knockout Kit (CRISPR)**

#### **Product data:**

|                      |                                |
|----------------------|--------------------------------|
| <b>Product Type:</b> | Knockout Kits (CRISPR)         |
| <b>Format:</b>       | 2 gRNA vectors, 1 linear donor |
| <b>Donor DNA:</b>    | EF1a-GFP-P2A-Puro              |
| <b>Symbol:</b>       | Olfr818                        |
| <b>Locus ID:</b>     | 258773                         |

Components:

**KN512440G1**, Olfr818 gRNA vector 1 in pCas-Guide CRISPR vector (GE100002)

**KN512440G2**, Olfr818 gRNA vector 2 in pCas-Guide CRISPR vector (GE100002)

**KN512440D**, Linear donor DNA containing LoxP-EF1A-tGFP-P2A-Puro-LoxP:

The sequence below is cassette sequence only. The linear donor DNA also contains proprietary target sequence.

LoxP-EF1A-tGFP-P2A-Puro-LoxP (2739 bp)

**OTI Disclaimer:**

These products are manufactured and supplied by OriGene under license from ERS. The kit is designed based on the best knowledge of CRISPR technology. The system has been functionally validated for knocking-in the cassette downstream the native promoter. The efficiency of the knock-out varies due to the nature of the biology and the complexity of the experimental process.

**RefSeq:**

NM\_146777

**Synonyms:**

MOR110-2

**Summary:**

Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. [provided by RefSeq, Jul 2008]
