# Product datasheet for LC424812

## Phosphorylase B (PHKB) (NM\_000293) Human Over-expression Lysate

#### **Product data:**

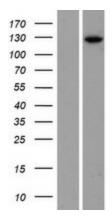

| Product Type:                            | Over-expression Lysates  |
|--|--|
| Description:                             | PHKB HEK293T cell transient overexpression lysate (as WB positive control)   |
| Species:                                 | Human  |
| Expression Host:                         | HEK293T  |
| Expression cDNA Clone<br>or AA Sequence: | TrueORF Clone RC220846   |
| Tag:                                     | C-Myc/DDK  |
| <b>Detection Antibodies:</b>             | Clone OTI4C5, Anti-DDK (FLAG) monoclonal antibody (TA50011-100)  |
| ACCN:                                    | <u>NM 000293, NP 000284</u>  |
| Predicted MW:                            | 124.7 kDa  |
| Components:                              | 1 vial of 20 ug lyophilized gene specific transient over-expression cell lysate  |
| Storage:                                 | The lysate can be shipped at ambient temperature. Upon receiving, store the sample at -<br>20°C. Lysate samples can be reconstituted with SDS Sample Buffer. Avoid repeated freeze-<br>thaw cycles after reconstitution. Lysate samples are stable for 12 months from date of receipt<br>when stored at -20°C.   |
| Preparation:                             | HEK293T cells in 10-cm dishes were transiently transfected with <u>MegaTran</u> Transfection<br>Reagent (TT200002) and 5ug <u>TrueORF</u> cDNA plasmid. Transfected cells were cultured for<br>48hrs before collection. The cells were lysed in modified RIPA buffer (25mM Tris-HCl pH7.6,<br>150mM NaCl, 1% NP-40, 1mM EDTA, 1xProteinase inhibitor cocktail mix (Sigma), 1mM PMSF<br>and 1mM Na3VO4), and then centrifuged to clarify the lysate. Protein concentration was<br>measured by BCA kit (Thermo Scientific Inc.). To facilitate transportation and protein, the<br>products are supplied as lyophilized proteins. |
| RefSeq:                                  | <u>NP 000284</u>   |
| Locus ID:                                | 5257   |
| Cytogenetics:                            | 16q12.1  |
| Protein Families:                        | Druggable Genome   |
| Protein Pathways:                        | Calcium signaling pathway, Insulin signaling pathway   |
|  |  |
