## Product datasheet for MR209848L3V

## Rpap3 (NM\_028003) Mouse Tagged ORF Clone Lentiviral Particle

## **Product data:**

| Product Type:                | Lentiviral Particles  |
|------------------------------|---|
| Product Name:                | Rpap3 (NM_028003) Mouse Tagged ORF Clone Lentiviral Particle  |
| Symbol:                      | Rpap3   |
| Synonyms:                    | 2310042P20Rik; D15Ertd682e  |
| Mammalian Cell<br>Selection: | Puromycin   |
| Vector:                      | pLenti-C-Myc-DDK-P2A-Puro (PS100092)  |
| Tag:                         | Myc-DDK   |
| ACCN:                        | NM_028003   |
| ORF Size:                    | 1980 bp   |
| ORF Nucleotide<br>Sequence:  | The ORF insert of this clone is exactly the same as(MR209848).  |
| OTI Disclaimer:              | The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. <u>More info</u> |
| OTI Annotation:              | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene.  |
| RefSeq:                      | <u>NM 028003.2, NP 082279.1</u>   |
| RefSeq Size:                 | 2260 bp   |
| RefSeq ORF:                  | 1983 bp   |
| Locus ID:                    | 71919   |
| UniProt ID:                  | <u>Q9D706</u>   |
| Cytogenetics:                | 15 53.54 cM   |
| Gene Summary:                | Forms an interface between the RNA polymerase II enzyme and chaperone/scaffolding<br>protein, suggesting that it is required to connect RNA polymerase II to regulators of protein<br>complex formation.[UniProtKB/Swiss-Prot Function]   |

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2022 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US
