

Product datasheet for MR218768

Atp7b (NM_007511) Mouse Tagged ORF Clone

Product data:

Product Type: Expression Plasmids
Product Name: Atp7b (NM_007511) Mouse Tagged ORF Clone
Tag: Myc-DDK
Symbol: Atp7b
Synonyms: Atp7a; tx; WND
Mammalian Cell Selection: Neomycin
Vector: pCMV6-Entry (PS100001)
E. coli Selection: Kanamycin (25 ug/mL)
ORF Nucleotide Sequence: >MR218768 representing NM_007511
 Red=Cloning site Blue=ORF Green=Tags(s)

TRTRPLEQKLISEEDLAANDILDYKDDDDKV

Chromatograms: https://cdn.origene.com/chromatograms/mm9001_b09.zip

Restriction Sites: SgfI-MluI

Cloning Scheme:

ACCN: NM_007511

ORF Size: 4386 bp

OTI Disclaimer:	The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. More info
OTI Annotation:	This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene.
Components:	The ORF clone is ion-exchange column purified and shipped in a 2D barcoded Matrix tube containing 10ug of transfection-ready, dried plasmid DNA (reconstitute with 100 ul of water).
Reconstitution Method:	<ol style="list-style-type: none">1. Centrifuge at 5,000xg for 5min.2. Carefully open the tube and add 100ul of sterile water to dissolve the DNA.3. Close the tube and incubate for 10 minutes at room temperature.4. Briefly vortex the tube and then do a quick spin (less than 5000xg) to concentrate the liquid at the bottom.5. Store the suspended plasmid at -20°C. The DNA is stable for at least one year from date of shipping when stored at -20°C.
RefSeq:	NM_007511.2 , NP_031537.2
RefSeq Size:	4711 bp
RefSeq ORF:	4389 bp
Locus ID:	11979
UniProt ID:	Q64446
Cytogenetics:	8 10.78 cM
MW:	157.6 kDa
Gene Summary:	Copper ion transmembrane transporter involved in the export of copper out of the cells, such as the efflux of hepatic copper into the bile.[UniProtKB/Swiss-Prot Function]
