

# Product datasheet for MR223740

## Abra (NM\_175456) Mouse Tagged ORF Clone

Myc-DDK

Abra

**Expression Plasmids** 

C130068O12Rik; STARS

### **Product data:**

Product Type:

**Product Name:** 

Tag:

Symbol:

Synonyms:

Selection: Vector:

Mammalian Cell

E. coli Selection: Restriction Sites: Cloning Scheme:

	(NM_175456) Mouse Tagged ORF Clone – MR223740
OTI Disclaimer:	Due to the inherent nature of this plasmid, standard methods to replicate additional amounts of DNA in E. coli are highly likely to result in mutations and/or rearrangements. Therefore, OriGene does not guarantee the capability to replicate this plasmid DNA. Additional amounts of DNA can be purchased from OriGene with batch-specific, full-sequence verification at a reduced cost. Please contact our customer care team at <u>custsupport@origene.com</u> or by calling 301.340.3188 option 3 for pricing and delivery.
	The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. <u>More info</u>
OTI Annotation:	This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene.
Components:	The ORF clone is ion-exchange column purified and shipped in a 2D barcoded Matrix tube containing 10ug of transfection-ready, dried plasmid DNA (reconstitute with 100 ul of water).
Reconstitution Metho	<ol> <li>Centrifuge at 5,000xg for 5min.</li> <li>Carefully open the tube and add 100ul of sterile water to dissolve the DNA.</li> <li>Close the tube and incubate for 10 minutes at room temperature.</li> <li>Briefly vortex the tube and then do a quick spin (less than 5000xg) to concentrate the liquid at the bottom.</li> <li>Store the suspended plasmid at -20°C. The DNA is stable for at least one year from date of shipping when stored at -20°C.</li> </ol>
RefSeq:	<u>NM 175456.4, NP 780665.1</u>
RefSeq Size:	1762 bp
RefSeq ORF:	1128 bp
Locus ID:	223513
UniProt ID:	Q8BUZ1
Cytogenetics:	15 B3.1
MW:	42.8 kDa
Gene Summary:	Acts as an activator of serum response factor (SRF)-dependent transcription possibly by inducing nuclear translocation of MKL1 or MKL2 and through a mechanism requiring Rho-actin signaling.[UniProtKB/Swiss-Prot Function]
