

Product datasheet for R1115HRPS

Product data:

Product Type: Primary Antibodies

Applications: ELISA, IHC, WB

KTI3 Rabbit Polyclonal Antibody

Recommended Dilution: Western blot: 1/1,000-1/5,000.

ELISA: 1/2,000-1/10,000.

Immunohistochemistry: 1/200-1/1,000.

Reactivity: Soy Bean
Host: Rabbit
Clonality: Polyclonal

Immunogen: Trypsin inhibitor from soybean

Specificity: This antibody detects soybean Trypsin inhibitor. Cross reactivity against Trypsin inhibitor

from other sources may occur but have not been specifically determined.

Immunoelectrophoresis give a single precipitin arc against anti-peroxidase and anti-rabbit

serum as well as purified and partially purified Trypsin inhibitor [soybean].

Formulation: 0.02 M Potassium phosphate, 0.15 M Sodium hloride, pH 7.2

Label: HRP

State: Lyophilized IgG fraction

Stabilizer: 10 mg/ml BSA (immunoglobulin and protease free)

Preservative: 0.01% (w/v) Gentamicin sulfate (Do NOT add Sodium azide!)

Label: Horseradish peroxidase

Reconstitution Method: Restore with 0.1 ml of deionized water or equivalent.

Concentration: lot specific

Purification: Delipidation, salt fractionation and ion exchange chromatography followed by extensive

dialysis against the buffer

Conjugation: HRP

Storage: Store lyophilized at 2-8°C for 6 months or at -20°C long term.

After reconstitution store the antibody undiluted at 2-8°C for one month or (in aliquots) at -

20°C long term. Avoid repeated freezing and thawing.

Stability: Shelf life: one year from despatch.

KTI3 Rabbit Polyclonal Antibody - R1115HRPS

Background:

Soybean trypsin inhibitor inhibits trypsin and to a lesser extent chymotrypsin and plasmin. Soybean trypsin inhibitor will also inhibit other proteases by a mechanism similar to trypsin. It has inhibitory effects towards plasma kallikrein and coagulation Factor Xa. However, soybean trypsin inhibitor will not inhibit metalloproteases, tissue-based kallikrein, acid proteases, or thio proteases. Anti-trypsin inhibitor antibody is ideal for investigators involved in cell signaling, biochemistry and signal transduction research.
