Human Lambda Light Chain (F(ab)2 Fragment) Goat Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Recommended Dilution: Suitable for Immunoblotting (Western or Dot blot), ELISA and Immunohistochemistry as well

as other phosphatase-antibody based enzymatic assays requiring extremely low background levels, absence of F(c) mediated binding, lot-to-lot consistency, high titer and specificity. Recommended Dilutions: This product has been assayed against 1.0 µg of Human IgG in a standard capture ELISA using pNPP p-nitrophenyl phosphate as a substrate for 30 minutes at room temperature. A working dilution of 1:200 to 1:1,000 of the reconstitution concentration

is suggested for this product.

Reactivity: Human

Host: Goat

Clonality: Polyclonal

Immunogen: Human lambda chain

Specificity: This product was prepared from monospecific antiserum by immunoaffinity chromatography

using Human antigens coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities, pepsin digestion and chromatographic separation.

Assay by immunoelectrophoresis resulted in a single precipitin arc against anti- Alkaline

Phosphatase and anti-Goat Serum.

No reaction was observed against anti-Pepsin or anti-Goat IgG F(c).

Specificity was confirmed by ELISA at less than 1% cross reactivity against other human heavy

or light chain isotypes.

Formulation: 0.05 M Tris Chloride, 0.15 M Sodium Chloride, 0.001M Magnesium Chloride, 0.0001 M Zinc

Chloride, 50% (v/v) Glycerol; pH 8.0 with 10 mg/ml Bovine Serum Albumin (BSA) IgG and

Protease free as stabilizer and 0.01% (w/v) sodium azide as preservative.

Label: AP

State: Liquid (sterile filtered) F(ab')2 fragments.

Label: Alkaline Phosphatase (Calf Intestine) (Molecular Weight 140,000 daltons)

Concentration: lot specific

Purification: Immunoaffinity chromatography.

Conjugation: AP

Human Lambda Light Chain (F(ab)2 Fragment) Goat Polyclonal Antibody - R1402AP

Storage: Store the antibody as an undiluted liquid at 2-8°C.

DO NOT FREEZE!

Freezing alkaline phosphatase conjugates will result in a substantial loss of enzymatic activity.

Dilute only prior to immediate use.

Stability: Shelf life: One year from despatch.
