

Product datasheet for **RC200717L2V**

MGAT1 (NM_002406) Human Tagged ORF Clone Lentiviral Particle

Product data:

| | |
|---------------------------|--|
| Product Type: | Lentiviral Particles |
| Product Name: | MGAT1 (NM_002406) Human Tagged ORF Clone Lentiviral Particle |
| Symbol: | MGAT1 |
| Synonyms: | GLCNAC-TI; GLCT1; GLYT1; GNT-1; GNT-I; GnTI; MGAT |
| Mammalian Cell Selection: | None |
| Vector: | pLenti-C-mGFP (PS100071) |
| Tag: | mGFP |
| ACCN: | NM_002406 |
| ORF Size: | 1335 bp |
| ORF Nucleotide Sequence: | The ORF insert of this clone is exactly the same as(RC200717). |
| OTI Disclaimer: | The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. More info |
| OTI Annotation: | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene. |
| RefSeq: | NM_002406.2 , NP_002397.1 |
| RefSeq Size: | 2937 bp |
| RefSeq ORF: | 1338 bp |
| Locus ID: | 4245 |
| UniProt ID: | P26572 |
| Cytogenetics: | 5q35.3 |
| Domains: | GNT-I |
| Protein Families: | Druggable Genome, Transmembrane |

Protein Pathways: Metabolic pathways, N-Glycan biosynthesis

MW: 50.9 kDa

Gene Summary: There are believed to be over 100 different glycosyltransferases involved in the synthesis of protein-bound and lipid-bound oligosaccharides. UDP-N-acetylglucosamine:alpha-3-D-mannoside beta-1,2-N-acetylglucosaminyltransferase I is a medial-Golgi enzyme essential for the synthesis of hybrid and complex N-glycans. The protein, encoded by a single exon, shows typical features of a type II transmembrane protein. The protein is believed to be essential for normal embryogenesis. Several variants encoding the same protein have been found for this gene. [provided by RefSeq, Jul 2008]
